

## Practice Management

Your office, simplified.

Optimize billing and scheduling with integrated solutions designed to complement your office workflow.

**Care360 Practice Management (PM)** helps you save time and enjoy greater convenience by simplifying all of the essential daily tasks of your medical office.

Information flows seamlessly between Care360 PM and your electronic health record (EHR) to ensure real-time access to critical patient information.

# Care360 Practice Management • Advantages

## Appointment Scheduling

Managing the flow of patients through your practice can help you to increase revenue and improve patient satisfaction. We help you maximize your most valuable resource—the physician's time.

### Key benefits include:

- Schedule customization
- Implementation of scheduling rules
- Daily, weekly, and monthly calendars
- Appointment email, phone, and text reminders

## Medical Billing

Web-based medical billing software from Care360 can help you get paid faster and improve your productivity by automating and streamlining your entire billing and collections process. Information seamlessly flows from the PM to your billing system.

### Key benefits include:

- Simplified insurance claims processing
- Resolution of rejections and denials
- Streamlined payment posting
- Effective collections management

**Enhance your practice with an integrated, web-based solution built to help increase efficiencies while supporting your medical billing needs.**

### Support your office with Care360 PM to:

- Gain a clear picture of performance through a customized dashboard that highlights key indicators
- Keep your pulse on the financial health of your business with customizable reports that support your unique needs
- Easily access patient records to help manage your workload and drive efficiencies
- Increase collections and reduce billing errors through automated, real-time, eligibility verification
- Experience an integrated, seamless workflow that makes critical patient information easily accessible to your entire office staff.
